

Vedananda Pandeya - Nepal

Sri Matri Aurobindo Vidyalaya

Vedananda grew up at the Sri Aurobindo Yoga Mandir in Nepal, an educational ashram based on the Integral Yoga taught by Sri Aurobindo and the Mother. This organisation enables 250 children and young people from the most disadvantaged backgrounds in Nepal to attend school, from kindergarten to university, while learning the life and skills necessary to become a fulfilled and dignified human being: cooking, organic farming, cow herding, handi-crafts, yogas and arts.

After completing his studies in mathematics and physics in Germany, he started working as the director of Sri Matri Aurobindo Vidyalaya, the ashram school, at the age of 24.

Nothing can be taught
